

DEVELOPMENT PLAN FOR TELLICHERRY

(THALASSERY) TOWN

VARIATION – 2007

1. INTRODUCTION

Tellicherry is the largest town in Kannur District and is the headquarters of Tellicherry Taluk; The town comprises an area of 23.96 sq.km, with a population of 99387 as per 2001 census. The variation-2007 scheme (planning) area comprises an area of only 15.35 sq.km, as a continuation of the previous planning area of the sanctioned scheme. A scheme for the total Municipal area including the jurisdictional change (with the added Panchayat) will be prepared in the next revision.

1.1 Need for variation

The Development Plan (The General Town Planning Scheme) for Tellicherry Town was sanctioned under section 14 of the Madras Town Planning Act 1920, as per G.O(MS) No.218/83/LA&SW dated 29th November 1983. The designed plan period of the said plan was 20 years. Now it has become high time for the revision of the scheme to cope with the future Town. Owing to the improvements in the economic activities of the area, few land use changes had also occurred. Thrust for residential developments resulted, in the conversion of certain parcels of agriculture land. There is also a change in the alignment of the proposed NH-17 by pass from that envisaged in the sanctioned plan. Also Government by order permitted reduction in width of the proposed width of certain roads from that envisaged in the plan.

Hence, it is decided to vary the said scheme for the purpose making the scheme compatible to the present development scenario to the extent possible as an immediate measure, until the scheme is further revised after detailed studies.

2. METHODOLOGY

The town planning schemes prepared under Madras Town Planning Act-1920 and rules framed there under, determine the line in which the improvement and development of the areas included in the scheme takes place. The changes in development patterns and priorities together with other ongoing developments and requirements of the public necessitates periodic variation off the sanctioned Master Plans/Development Plans and Detailed Town planning Schemes. Section 15 of Madras Town Planning Act provides for the variation of sanctioned Town Planning scheme, with a subsequent scheme published and sanctioned in accordance with the Act. It is essential that a comprehensive General Town Planning Scheme prepared for the entire Thalassery Municipal Area, so that the future

developments of the area can be guided within the framework of that plan. However the present variation is intended on apart variation of the sanctioned scheme with out incorporating jurisdictional changes of the Municipal area.

Also there are 3 Sanctioned Detailed Town Planning Schemes in Tellicherry municipal area, which will be statutory and will prevail over this varied Development Plan.

1. Detailed Town Planning Scheme for New Bus stand area - GO(Ms) No.70/88/LAD, Dt 27.05.1988
2. Detailed Town Planning Scheme for Jubilee Market area - GO(Ms) No.104/86/LAD, Dt 03.06.1986
3. Detailed Town Planning Scheme for Vayalalam area - GO(Ms) No.100/92/LAD, Dt 24.04.1992

3. Development Plan for Tellicherry Town

For the implementation and enforcement of the proposal envisaged in the sanctioned Development Plan for Thalassery Town covering the entire are of the then Tellicherry Town (except the newly added portion of Kodiyeri village) was zoned under various categories such as

- 1) Residential use zone
- 2) Mercantile or Commercial use zone
- 3) Industrial use zone
- 4) Public and semi-public use zone
- 5) Sector Center
- 6) Parks and open spaces
- 7) Transport and Communication zone
- 8) Water Logged areas and agricultural reservations
- 9) Hazardous use zone

4. Development Plan for Tellicherry (Thalassery) Town Variation – 2007

4.1 Existing Land use Map 2006

The variation proposal made to the sanctioned scheme area of the Town is based on a land use updation survey conducted to study the existing scenario of the town. The map 1 represents the same.

4.2 Variation – 2007

Considering the development trend of the town as assessed in the updated land use survey, the Town area have been re-zoned under various categories such as,

- 1) Residential Zone I
- 2) Residential Zone II
- 3) Commercial Use Zone
- 4) Industrial Use Zone
- 5) Public and Semi-public use Zone
- 6) Playground, Parks and open spaces
- 7) Transport & Communication Zone
- 8) Agriculture use zone
- 9) Environmentally sensitive areas and watterr bodies

Map No.2 – the varied development plan is appended herewith. In the aea, around the CBD a mixed development of residential, commercial and public and semipublic uses are permitted. The zoning regulations for this zone enable all these uses.

The sides of Eranholi River and water – logged area is zoned as ecologically sensitive areas. The CZM plan is applicable in such areas and the Coastal Zone Regulations as such will be applicable.

The areas zoned for Industrial use in Morakkunnu and Kolasserri area off the town could not be materialized and the areas are being developed as residential area. The land around the recently constructed municipal industrial estate in Manjodi area is now showing a trend of industrial development. This area previously marked as agricultural area is there proposed as industrial zone.

Certain areas which existed as agricultural area were previously zoned as agriculture zone is now proposed as residential use zone I as these areas are developed residentially. The areas now zoned for agriculture use is the actual agricultural area/ paddy field a per updated land use survey and which are proposed to be retained a such.

4.3 Circulation Plan

The circulation plan of the Sanctioned Plan will continue as such. A very few stretches of roads according to specific Govt. order the widths are varied, which are given below. Circulation pattern will be decided after detailed Traffic and Transportation Survey and will be incorporated in the next revision, which has to be carried out with boundary change (Added new Panchayat to Municipality). The building line provisions envisaged in the sanctioned Development Plan will continue for construction of buildings abutting all roads within the scheme boundary. The National Highway-17 Bye-pass re-aligned as per the actual alignment along which land has already been acquired by PWD (N.H).

Variation of the circulation plan is proposed only to the following extent.

1. Width of proposed New Bus stand road is reduced to 15 m from the envisaged /20m as per the Sanctioned Development Plan and DTP scheme for New Bus Stand Area, Tellicherry. This change has been incorporated as per Governemtt letter No. 1818/M2/2002/LSGD. Dated 15/03/2002.
2. Width of proposed road connecting Ne Bus stand road to Mukundamallaer road is reduced to 14 me from the envisaged width of 18 m in the Sanctioned Developmentt Plan and DTTP scheme for New Bus Stand area, Thalasserry . This change has been incorporated as per Government letter No. 39176/G1/05/LSGD, Dated 4/4/2006.

5. Implementation of the Development Plan for Tellicherry Town variation -2007

The Map No.7 (Proposed Land Use for Tellicherry Town by 19910 of the Development plan for Tellicherry is revised incorporating the above mentioned variations and is appended as Map No.II. The zoning regulations in Part III "implementation of the plan" in the document of the Sanctioned Development Plan for Tellicherry is replaced as given below. All future developments shall be in conformity with the Development Plan for Tellicherry, Variation-2007 Map No.II and the corresponding amended zoning regulations.

ZONING REGULATIONS

1. All future developments shall be in conformity with the provisions of the Development Plan for Tellicherry (Thalassery) Town Variation-2007. This part of the plan document presents a comprehensive set of zoning regulations aimed towards ensuring the urban development in accordance with the plan proposals. The applications of these regulations is to be ensured in conjunction with the Coastal Zone Regulations in force and the provisions of the National Building Code of India where ever necessary and the regulations will prevail over the provisions of Kerala Municipalities Building Rules,1999.
2. For the implementation and enforcement of the proposals envisaged in this Development Plan areas have been zoned under various categories such as Residential zone I, Residential zone II, Commercial zone, Industrial use zone, Public and semi public use zone, Playground, parks and open spaces use zone, Transport and Communication use zone, Agricultural use zone, Environmentally sensitive areas, Water bodies etc. Details regarding the nature of uses 'permitted', uses 'restricted' and uses 'prohibited' in each zone are given in the accompanying sheets. These regulations shall be enforced in conjunction with other specific provisions if any mentioned elsewhere in the scheme.

Uses 'permitted' in a zone cover the uses that can be normally accommodated in the relevant zone, Such uses may be permitted by the Secretary, Tellicherry Municipality hereinafter referred to as the Secretary. In some cases it may be possible to permit some other uses also, which are not likely to affect the quality and environment in a zone specified for a particular use. Such cases have to be individually studied based on their performance characteristics and special locational factors. Such cases which come under this category are classified as "Uses Restricted". Restricted -I category deals with the uses that shall be restricted by the Secretary with the concurrence of the Town Planner of the District office of the Department of town and Country Planning. Restricted-2 category deals with the uses that shall be restricted by the Secretary with the concurrences of the Chief Town Planner of the Department of Town and Country Planning.

"Uses prohibited" enlists the various objectionable uses in each zone which shall not be permitted under normal circumstances.

3. Zoning regulations are not intended to prohibit existing uses that have been lawfully established prior to the enforcement of these regulations, unless otherwise specifically mentioned in this scheme. They are essentially intended to help the competent authority in decisions regarding granting or refusal of permits for land development and construction of buildings/structures.
4. If any portion of a zone is put to a "Use Prohibited" as stated in Para 2, before the sanctioning of the scheme, such use shall be termed as *non-conforming* use. A *non-conforming* use may be allowed to continue in its existing location and essential repairs and maintenance for the structure may be permitted by the Secretary, provided that he said use create no adverse environmental influence in the zone. Addition, alteration or reconstruction, if found necessary as part of any mitigation measures may be permitted for such uses by the Secretary with the concurrence of the Chief Town Planner.
5. Existing areas and structures of archaeological importance, agricultural uses and religious uses may be permitted to continue in all the zones and shall not constitute non-conforming uses.
6. Regulation of constructions and land developments on the sides of new roads/roads proposed for widening as per the scheme shall be governed by the distance from the centerline of the road, unless otherwise specified in the scheme or in any detailed road alignment approved by the Chief Town Planner.

General Notes:
