

## CHAPTER 32

### ZONING REGULATIONS

#### A. GENERAL GUIDELINES

1. All future development shall be in conformity with the provisions of the Master Plan for Guruvayur Town - 2039.
2. For the implementation and enforcement of the proposal envisaged in this Master Plan, areas have been zoned under various zones such as Temple core zone, Pilgrim Activity Zone, Residential Use Zone, Mixed Use Zone, Dry Agriculture cum Residential Use Zone, Commercial Use Zone, Traffic and Transportation Use Zone, Public and Semi-Public Use Zone, Industrial Use Zone, Conservation zone, Recreational Zone, Water bodies, Mangroves and Special Zone. Details regarding the nature of uses '*permitted*' and uses '*restricted*' in each zone are given in Table 32.1 These regulations shall be enforced in conjunction with other specific provisions if any mentioned elsewhere in the Master Plan.
3. Uses '*permitted*' in a zone cover the uses that can be normally accommodated in the relevant zone. Such uses may be permitted by the Secretary, Guruvayur Municipality (hereinafter referred to as Secretary). In some cases it may be possible to permit some other uses also, which are not likely to affect the quality and environment in a zone specified for a particular use. Such cases have to be individually examined based on their performance characteristics and special locational factors. Such cases which come under this category are classified as "*Uses Restricted*".
  - a. Uses restricted- 1 Category deals with the restricted uses that may be permitted by the Secretary with the concurrence of the District Officer of the Local Self Government Department (Planning) having jurisdiction over the area (hereinafter referred to as Town Planner).
  - b. Uses Restricted- 2 Category deals with the restricted uses that may be permitted by the Secretary with the concurrence of the Chief Town Planner of Local Self Government Department (Planning).
4. "Uses prohibited" are various objectionable uses in each zone which shall not be permitted under normal circumstances. All uses which does not come under 'Uses Permitted' or 'Uses Restricted' shall be considered as '*Uses prohibited*'.

5. Any use not specified either in the 'uses permitted' or 'uses restricted' category of a particular use zone but which is of a similar nature to any use 'permitted' or 'restricted' in that particular use zone, may be permitted by the Secretary with the concurrence of the Town Planner.
6. If any portion of a zone is put to a "*Use Prohibited*" as stated in Para 4, before coming into operation of this Master Plan, such use shall be termed as *non-conforming use*. A non-conforming use may be allowed to continue in its existing location and essential repairs and maintenance for the structure may be permitted by the Secretary, provided that the said use create no adverse environmental influence in the zone. Addition, alteration or reconstruction, if found necessary as part of any mitigation measures may be permitted for such uses by the Secretary with the concurrence of the Town Planner. The total built up area of such non-conforming use shall not exceed 1.25 times the existing built up area.
7. Zoning regulations are not intended to prohibit existing uses and constructions that have been lawfully established prior to the enforcement of these regulations, unless otherwise specifically mentioned in this Master Plan. Zoning Regulations are essentially intended to help the competent authority in taking decisions regarding granting or refusal of permits for land development and construction of buildings/ structures.
8. Existing areas and structures of archaeological importance and religious uses may be permitted to continue in all the zones and shall be treated as permitted uses.
9. Subject to the zoning regulations of the respective use zones, more than one use may be combined in a building/ plot, provided that the area of individual uses shall be limited to that prescribed for each such use in the zoning regulation for the respective zone.
10. All future developments shall also be in conformity with the provisions of Kerala Municipality Building Rules, unless otherwise specified in these regulations or in any Detailed Town Planning Scheme in force.
11. Provisions/regulations under the Kerala Conservation of Paddy Land & Wetland Act 2008, Disaster Management Act, Coastal Zone Regulations, Environment Protection Act 1986 and any other applicable statutes as amended from time to time shall prevail over the respective provisions of this Master Plan.

12. Silence zone, as prescribed by the Noise Pollution (Regulation and Control) Rules, 2000 as amended from time to time, shall be applicable to such areas under this Master Plan.
13. Regulation of constructions and land developments on the sides of new roads / roads proposed for widening as per the scheme shall be governed by the distance from the centre line of the road, unless otherwise specified in the Master Plan or Detailed Town Planning Scheme in force or any Detailed Road Alignment approved by Government. If widening on one side of any stretch of the road is constrained due to the physical barriers of water bodies zone, mangroves zone, the road widening in that stretch shall be accounted from the other side.
14. Operational constructions as defined in the Kerala Town & Country Planning Act 2016 shall be treated as permitted use in the Master Plan Area.
15. The Government shall have the power to issue clarifications in respect of technical interpretations, if any, required on any of the provisions of the Master Plan in consultation with the Chief Town Planner concerned of the Local Self Government Department (Planning).
16. Expansion of existing Public and Semi Public Institutions and existing Industrial units including their incidental uses to adjacent plots shall be treated as permitted use irrespective of the zone in which such adjacent plot lies, except in Water bodies zone and Mangroves zone.
17. Only the existing areas under Public and Semi Public uses , Industrial uses, Mangroves, and Water bodies are intended to be included under Public and Semi Public zone , Industrial use zone, Mangroves, and Water bodies respectively. If any private property put under uses other than those permitted or restricted in the above zones has got included within such zones, the Secretary may, with the concurrence of the Town Planner, after verification of the revenue ownership documents, accord sanction for development by adopting the regulations of the adjacent land use zone in the proposed land use map, subject to the provisions as per applicable Acts, Rules and Government Orders in force in the State.
18. If public activity or industrial activity ceases or do not exists in a private land, uses permitted/ restricted in the adjacent land use zone shall be allowed in the plot with the concurrence of the Town Planner, if no records are available with Guruvayur

Municipality regarding any proposal for acquiring that particular land for any public use at the time of application for building construction or land development.

19. Uses Permitted in Mixed use Zone may also be permitted by the Secretary, if not allowable otherwise as per the zoning regulations applicable, on both sides of the following roads (as per this Master Plan) in residential use, commercial use, dry agriculture cum residential use , public & semipublic use zones in land upto a depth shown against each road in the table below.

Uses restricted in Mixed use Zone may also be permitted by the Secretary if not allowable otherwise as per the zoning regulations applicable, but with the concurrence of the Town Planner or the Chief Town Planner as the case may be, on both sides of the following roads (as per this Master Plan) in such applicable zones as mentioned above in land upto a depth shown against each road in the table below:

Sl. No.	Category of Road	Depth from the proposed road boundary (in metres) on both sides of the road upto which provisions of Mixed use Zone is applicable
1	All roads having an existing or proposed width of 12 metres or more	100m
2	All roads having an existing or proposed width of 15 metres or more	200m

If more than 50% of the area of a plot is included within the Mixed use Zone, the entire plot shall be deemed to be included under such Mixed use Zone

20. Disaster mitigation projects by competent authorities shall be permitted in all zones.
21. Transmission / telecommunication towers, wireless station, ATMs, water tanks, waste management units and public utility buildings/structures shall be treated as permitted uses in all zones except in Water bodies zone, Mangroves zone
22. Projects of Central/ State Government, Local Self Government Institutions, Public Sector Undertakings and other Government Institutions may be permitted with concurrence of the Town Planner in all built up zones such as Residential, Commercial, Industrial, Public & Semi Public, Dry Agriculture cum residential, Mixed use zones ,

if such uses are not included in the permitted uses or restricted uses as per the zoning regulations applicable.

23. A minimum width of 3metres is to be maintained for Valiyathodu at all points. Also, no building construction other than compound wall, shall be allowed upto to a certain width on the landward side of the following water bodies.

Sl. No.	Name of Water Body	Width of land on the landward side where no constructions are allowed
1	Valiyathodu	3m
1	Other Streams/ Thodu having width of 2m to 5m	2m
2	Other Streams/ Thodu having width of 5m or more	3m

24. In case of uncertainty in identifying the alignment and boundary of thodu, canal, river, existing public road, railway line and in the absence of survey boundaries for the same in the Proposed Land Use Maps, it shall be referred to the actual position on ground as well as revenue records and decision taken by the Secretary in this regard shall be final.
25. The land specially demarcated for certain projects as Special Zones such as Pilgrim amenity centres, Stadium, Open air Gym and Yoga Park, Tourist Facilitation centres, Sports Village, Integrated Agro Park, Agro Center, Bus stands, Ground expansion, Multi functional centre,Community hall, Market,Mini markets, PHC development, Lakfront development may be procured as per the provisions of the Kerala Town & Country Planning Act 2016, by Guruvayur Municipality or other agencies concerned. If the proceedings to procure such land have not been initiated within 7 years from the date of sanctioning of this Master Plan, the areas so specifically demarcated may be released and assigned to a use permitted/restricted in the surrounding land use zone in the Proposed Land Use Map by the Secretary with the concurrence of the Town Planner, based on the application for building permit received.

26. The land demarcated as Temple core zone may be procured by Guruvayur Devaswom. If the proceedings to procure such land, if not owned by Guruvayur Devaswom, have not been initiated within 7 years from the date of sanctioning of this Master Plan, then all uses permitted or restricted in the Pilgrim Activity Zone shall be applicable for considering application for building permit, in the areas so demarcated as Temple Core Zone.
27. If different land use zones fall within a single plot, all uses permitted as per zoning regulations of such land use zones may be permitted by the Secretary in the plot. If application submitted includes any of the restricted uses and not included in such permitted uses, the Secretary shall issue permit with the concurrence of the Town Planner/Chief Town Planner, as the case may be. However, for the part of the plot which comes under water bodies zone, conservation zone, mangroves zone, special zone this provision shall not be applicable.
28. Electric charging stations for vehicles may be permitted in all zones other than water bodies zone, conservation zone, mangroves zone.
29. In Conservation zone, permitted and restricted uses in adjacent land use zone may be permitted with the concurrence of the Town Planner if that particular land in Conservation zone is not classified as paddy land or wetland as per revenue records at the time of issuance of permit.
30. In recreational zone, the Secretary may, with the concurrence of the Chief Town Planner, accord sanction for development by adopting the regulations of the adjacent land use zone in the proposed land use map.
31. In zones other than Temple core zone, in lands owned by Guruvayur Devaswom as on the date of publication of Master Plan, constructions may be permitted with the concurrence of the Chief Town Planner and in conformity to prevailing rules and statutes, irrespective of zoning prescribed in this Master Plan.
32. Large Scale development projects in an area 1 hectare or more, exceeding an investment of Rs.100 Crores, which provide direct employment (after commissioning of the project) to the tune of not less than 500 may be permitted in all zones other than water bodies zone, mangroves zone if not included in the permitted uses or restricted uses as per zoning regulation applicable. In such cases, the recommendation of a committee with constitution as below shall be obtained, subject to satisfying the

procedures laid out here under and the Secretary shall comply the same while issuing permit.

Also, Adequate provision shall be made for supporting infrastructure such as water supply, sewerage, solid waste management, power supply etc. Separate systems for management of solid waste and sewage shall be provided and maintained by the developer at his cost. The project shall be completed within a period of 5 years or as suggested by the Committee.

## FLOOD HAZARD OVERLAY FOR FLOOD PRONE ZONES

**Flood prone Zones:** These are areas which are exposed to floods and are classified into various Zones (High and Medium ) based on the intensity of likely Floods in the design scenario of 50-year return period( Source: KSDMA)

High risk areas are areas likely to be inundated to a depth between 1.5m and 3m in the design flood scenario. Moderate risk areas are areas likely to be inundated to a depth between 0.6m and 1.5m in the design flood scenario. For the purpose of reducing Disaster Risk, proposed land use and the developments in various hazard zones are further modified by Flood Hazard Overlay regulations in Table 32.2. These additional regulations are aimed at reducing damages and losses to people and assets in the flood prone areas. Flood Hazard Overlay regulations have to be read in conjunction with the zoning regulations in Table 32.1 and wherever a conflict occurs the additional regulations in the Flood hazard overlay shall prevail.

**Table 32.2 Flood Hazard Overlay regulations**

Sl.No.	USES PERMITTED	USES RESTRICTED	USES PROHIBITED
<b>1</b>	<b>High Risk Area: (inundation depth between 1.5m and 3m)</b>		
	Constructions in respective zones as in the proposed Land use Plan.		
	Basement floors are not allowed for any use other than parking.		
	Plinth levels of all buildings should be at a height of minimum 0.75 metre above the existing ground level or on stilts of height minimum 0.75 metre from existing ground level.		
	No sharp-edged projections shall be fixed over the compound walls or gates, for facilitating easy evacuation.		
	All new single storeyed buildings should have a stairway to the roofs so that temporary shelter can be taken there		

	All new buildings shall have a minimum of one-third of the roof terrace kept open to sky subject to a minimum of 15sq.m, which shall be accessible to facilitate easy evacuation.		
	New constructions shall have at least one balcony or open verandah or open terrace in the upper floor(s) or open stair connecting the upper floor(s) to the ground. Such balcony or open verandah or open terrace or open stair shall face the yard abutting the adjoining street to facilitate easy evacuation.		
	Percolation of water in plots shall not be restricted by impervious paving. If essential, only 25% of the mandatory open space required for the building shall be paved with such pavings.		
	All Existing ponds shall be preserved.		
	No construction/ land development shall obstruct/ reduce drainage capacity in the area.		
<b>2</b>	<b>Moderate Risk Area: (inundation depth between 0.6m and 1.5m)</b>		
	Constructions in respective zones as in the proposed Land use Plan.		All other uses not specified
	Basement floors,if any are not allowed for any use other than parking.		
	Plinth levels of all buildings should be at a height of minimum 0.60 metre above the existing ground level or on stilts of height minimum 0.60 metre from existing ground level.		
	No sharp-edged projections shall be fixed over the compound walls or gates, for facilitating easy evacuation.
